

ERYTECH announces ADR Level 1 listing in the US

- ADR (American Depository Receipt) program to facilitate the participation of US investors in non-US corporations
- Part of ERYTECH's strategy to increase visibility in the US
- ERYTECH ADRs available for trading on OTC market under symbol EYRYY

Lyon (France), January 12, 2015 – ERYTECH (Euronext Paris: FR0011471135 - ERYP), the French biopharmaceutical company that develops innovative 'tumor starvation' treatments for acute leukemia and other oncology indications with unmet medical needs, today announced the launch of a sponsored American Depository Receipt (ADR) Level 1 listing in the United States in order to support the expansion of the Company's US investor base.

An ADR Level 1 is a negotiable US security representing ownership of publicly traded shares in a non-US corporation. ADRs are quoted and traded in US dollars in the US Securities market. Also, the dividends, if any, are paid to investors in US dollars. ADRs are specifically designed to facilitate the purchase, holding and sale of non-US securities by US investors.

The ERYTECH ADRs will now be available for trading in the US over-the-counter (OTC) market. The ticker symbol is EYRYY and each ERYTECH ADR represents one ERYTECH ordinary share as traded on Euronext Paris. Bank of New York Mellon acts as depository bank for the ADR program. ERYTECH's ordinary shares continue to trade on Euronext Paris.

Gil Beyen, Chairman & Chief Executive Officer of ERYTECH, commented: *"The ADR program is part of our strategy to increase the company's visibility with investors in the United States. Following two successful capital operations in 2014, US investors have become an important part of our shareholder base. The launch of the ADR program will offer alternative trading options for existing and potential new US investors and will increase the liquidity of our shares without bringing any additional direct costs for the company."*

About ERYTECH: www.erytech.com

Created in Lyon in 2004, ERYTECH is a French biopharmaceutical company providing new prospects for cancer patients, particularly those with acute leukemia and selected solid tumors.

By encapsulating the asparaginase enzyme in red blood cells, ERYTECH has developed ERY-ASP/GRASPA^{®1}, an original treatment that targets cancer cells through "tumor starvation" while significantly reducing the side effects for patients. ERY-ASP/GRASPA[®] has recently announced positive Phase III data in Acute Lymphoblastic Leukemia (ALL) and is in Phase IIb clinical trial in Acute Myeloid Leukemia (AML) in Europe. The product is also in Phase I/II clinical development in ALL in the USA.

¹ Also known as ERY-ASP. GRASPA is the intended tradename of the product for use in ALL and AML in Europe and has been licensed to ERYTECH's commercial partner Orphan Europe (Recordati Group). ERY-ASP is the codename used outside Europe and in other indications.

Every year about 50,000 patients are diagnosed with Acute Lymphoblastic Leukemia (ALL) or Acute Myeloid Leukemia (AML), the two forms of acute leukemia. Today, for about 80% of these patients, mainly adults and relapsing patients, current forms of asparaginase cannot be used due to their toxicity. With a presumed improved safety profile, ERY-ASP/GRASPA® is being developed to allow all leukemia patients to be treated, even the most fragile ones, representing a market opportunity of more than EUR 1 billion.

The company is also developing other indications in solid tumors and certain orphan indications outside oncology. A Phase II study in pancreas cancer is ongoing and the company is exploring other solid tumor indications for ERY-ASP.

ERYTECH has obtained orphan drug designations for ERY-ASP/GRASPA® in ALL, AML and pancreas cancer, both in Europe and the USA, and has its own GMP-approved and operational manufacturing site in Lyon (France), and a site for clinical production in Philadelphia (USA).

The company has concluded licensing and distribution partnership agreements for ALL and AML in Europe with Orphan Europe (Recordati Group), and for ALL with TEVA in Israel.

ERYTECH is listed on Euronext regulated market in Paris. (ISIN code: FR0011471135, ticker: ERYP) and is part of the CAC Healthcare, CAC Pharm. & Bio and Next Biotech indexes.

Forward-looking information

This document may contain forward-looking statements and estimates with respect to the financial situation, the results of operations, the strategy, the project and to the anticipated future performance of ERYTECH and of the market in which it operates. Certain of these statements, forecasts and estimates can be recognized by the use of words such as, without limitation, “believes”, “anticipates”, “expects”, “intends”, “plans”, “seeks”, “estimates”, “may”, “will” and “continue” and similar expressions. They include all matters that are not historical facts. Such statements, forecasts and estimates are based on various assumptions and assessments of known and unknown risks, uncertainties and other factors, which were deemed reasonable when made but may or may not prove to be correct. Actual events are difficult to predict and may depend upon factors that are beyond the Company's control. There can be no guarantees with respect to pipeline products that the products will receive the necessary regulatory approvals or that they will prove to be commercially successful. Therefore, actual results, the financial condition, performance or achievements of ERYTECH, or industry results, may turn out to be materially different from any future results, performance or achievements expressed or implied by such statements, forecasts and estimates. Documents filed by ERYTECH Pharma with the French Autorité des Marchés Financiers (www.amf-france.org), also available on our website (www.erytech.com) describe such risks and uncertainties. Given these uncertainties, no representations are made as to the accuracy or fairness of such forward-looking statements, forecasts and estimates. Furthermore, forward-looking statements, forecasts and estimates only speak as of the date of the publication of this document. ERYTECH disclaims any obligation to update any such forward-looking statement. Readers are cautioned not to place undue reliance on any of these forward-looking statements. ERYTECH disclaims any obligation to update any such forward-looking statement, forecast or estimates to reflect any change in the Company's expectations with regard thereto, or any change in events, conditions or circumstances on which any such statement, forecast or estimate is based, except to the extent required by French law.
